**CHAPTER ONE** 

# Introduction

## **1.01 Background**

A technical assistance project titled "*Migration Awareness Raising in Bangladesh (MARIP Bangladesh)*" is being implemented by International Centre for Migration Policy Development (ICMPD) with funding from the Federal Foreign Office of Germany. The project *MARIP* Bangladesh is linked with the EU-funded project "Improving Migration Management in Bangladesh" and with the project funded by

State Secretariat for Migration of the Government of Switzerland for the operationalisation of the Migrant Resource Centres in Dhaka and Cumilla.

Migrant Resource Centres have been set up in different districts by ICMPD in close coordination with the Ministry of Expatriates' Welfare and Overseas Employment and its agencies such as the Bureau of manpower Employment and Training (BMET) and Wage Earners' Welfare Board (WEWB), particularly the District Employment and Manpower Offices (DEMOs).

The major thrust of the project is set on strengthening of awareness campaign activities towards the potential or aspirant migrant workers and welfare services for the family members of the migrant workers and the returnees.

## **1.02 Overseas Employment from Bangladesh**

In the context of the economy of Bangladesh, overseas employment has been established as one of the primary responses towards alleviating poverty, reducing the unemployment problem and developing the economy. Formal migration for employment started in 1976 with a number of 6,078 migrant workers. About 90% of the overseas employment took place in 9 countries only. These are KSA, UAE, Kuwait, Qatar, Bahrain, Oman, Malaysia, South Korea and Singapore.

At present, Bangladesh is sending human resources to 174 countries and the current stock of migrant workers is about 11 million. The latest migration trend is about 0.7m per year, of which the less skilled component constitutes about 40%. The yearly remittance earning is around USD 19 billion but more skilled migration could ensure a substantial increase in the remittance flow. The major benefit from the migration is the worker's remittances. They have made a significant contribution towards the Gross Domestic Product (7-8%) and facilitate the balance of payment. The amount of remittances is 11 times of the Foreign Direct Investments and 8 times of Official Development Assistance.

Considering the contribution and importance of expatriate Bangladeshis, government emphasised on ensuring the rights, protection and welfare of Bangladeshi workforce both at home and abroad, and to facilitate overseas employment for rapid economic growth. While female migration is gradually getting importance in the overseas employment arena, female migrants remain to face major challenges such as limited understanding of the complexities of migration which at times, result to gender violence and exploitation. There is also a challenge in the nature of skills and employment offered for Bangladeshis, most remain at the less and mid-skilled levels that limit better working terms, conditions and benefits.

## 1.03 Skill in migration

About 41% of the total Bangladeshi workforce in various countries particularly in the Middle Eastern countries and Malaysia are less-skilled workers. They have very little or no formal educational background and have not received any kind of training. Semi-skilled workers account for 15%, skilled workers are at 43% and professionals are at 1%. Bangladeshis working abroad currently range from domestic workers to atomic scientists. Demand for skilled human resources in different trades is increasing in the world employment market. The benefits can be derived only if a skilled labour force is available in order to be competitive in the world market. This requires international acceptance of the curricula of the Technical and Vocational Education and Training in Bangladesh. Bangladesh can enhance the skills of the labour force by providing them with appropriate training to achieve further success in global employment market.

The Bureau of Manpower, Employment and Training (BMET) is engaged in human resource development by providing skill training through its institutional capacities. Demand for skilled workers in the overseas employment is increasing worldwide. To increase the skilled migration and to cater to the needs of the international market, the less-skilled migration percentage has to be replaced with skilled human resources with international certification.

## 1.04 Protection of migrants' interest

Overseas employment needs more attention in respect to protection of the rights of migrant workers especially at the destination countries. Migration cost should be minimised and the channel of migration needs to be made easy and accessible to alleviate the exploitation of middlemen in this sector. There should be program for utilisation of remittance of the migrant workers in productive venture.

# Major functionaries for the welfare of migrant workers

## 2.01 Key Actors in migration process

In dealing the migration process, the following major Ministries and government agencies are in place:

- Ministry of Expatriates' Welfare and Overseas Employment. [Address: Probashi Kalyan Bhaban 71-72 Eskaton Garden, Dhaka-1000, Phone: 0088-02-8333604, Fax: 0088-02-9330766, E-mail: secretary@probashi.gov.bd, www.probashi.gov.bd]

**CHAPTER TWO** 

Development Partners

## 2.02 Ministry of Expatriates' Welfare and Overseas Employment (MoEWOE)

To provide more emphasis to the overseas employment sector, Bangladesh Government has established a separate ministry named Ministry of Expatriates' Welfare and Overseas Employment (MoEWOE) on 20 December 2001. The Ministry is responsible for formulating policies, plans, enacting laws, rules and regulations, developing projects, programmes and monitoring and management of overseas employment as well as overall welfare of expatriate workers. The Ministry is situated at Eskaton Garden, Dhaka-1000. Implementation of the policy, planning and program of the Government

relating to the management of overseas employment are being carried out by its Department named Bureau of Manpower, Employment and Training (BMET). The Ministry is also being supported by the Probashi Kalyan Bank (PKB), Bangladesh Overseas Employment Services Limited (BOESL) and Wage Earners' Welfare Board (WEWB).

The vision of the Ministry is to ensure welfare of the expatriates and enhancement of overseas employment with a principle of equal opportunity for the people of all areas of the country.

The main objectives of the Ministry are as follows:

- i) To ensure rights and welfare of the migrant Bangladeshi workers;
- ii) To ensure good governance through maintaining transparency and accountability in overseas employment management; and
- iii) To create skilled human resources by providing training according to the demand of the overseas labour market.

#### 2.03 Bureau of Manpower Employment and Training (BMET)

The Bureau of Manpower Employment and Training (BMET) was established as an attached department of the then Ministry of Manpower Development and Social Welfare in 1976. Divided from the manpower wing of the Labour Directorate, BMET came in a new structural form in accordance with the International Labour Organisation (ILO) Conventions 7, 8, 98 and 98. Presently, BMET is operating as

a major organisation under the MoEWOE for purpose of administering and managing recruitment process, preserving the rights of migrant workers and developing skilled human resources to create more opportunities for overseas employment. BMET is engaged in the overall planning and implementation of the strategies for regulating migration process, promoting migrant workers' rights and welfare,

With a view to achieving these objectives, BMET is trying to maximise the utilisation of training capacity to meet the demand of both local and overseas market.

providing skill development training for the proper utilisation of human resources of the country, specifically the migrant workers. BMET operates these functions through the district level offices of TTCs and DEMOs.

Bangladesh is now crossing the demographic dividend which will continue up to 2030. During this period, the population with the age group of 15-45 years will remain at the peak. To accrue the fruits of the demographic dividend, skills training should be a major thrust in the development agenda.

#### **2.04 District Employment and Manpower Office (DEMO)**

The District Employment and Manpower Office (DEMO) was initially named "Employment Exchange". The first 'Employment Exchange' was established in 1944 in Narayanganj. During the creation of BMET, 5 Employment Exchanges were operating under BMET. Employment Exchange is renamed as District Employment and Manpower

In 2017, all migration-related predeparture services and processes had been decentralised to the District levels.

Office (DEMO) in 1996. Presently, 42 DEMOs are operating in different districts covering responsibilities of 64 districts of the country; 22 districts do not have DEMOs.

As per the Overseas Employment and Migrants Act 2013, registration, fingerprint, issuing smart card and a three-day pre-departure training are the basic requirements for going aboard. These requirements are being conducted in DEMOs and TTCs.

BONICO

## 2.05 Technical Training Centre (TTC)

BMET is operating training programs through Technical Training Centres (TTCs) which are the main public provider of skills and vocational training in Bangladesh. Presently, there are 64 TTCs in different districts and 6 Institutes of Marine Technology (IMT). Six TTCs are exclusively serving for the female trainees. The courses include 4-years Diploma in two technologies and 2-years trade and Secondary level vocational courses. There are short courses with 1-6 months duration. Trade Courses are mostly equivalent up to level 4 of the National Technical and Vocational Qualification Framework (NTVQF). There are specialised courses on motor driving with auto-mechanics and training course on 5 languages – Japanese, Korean, English, Arabic and Cantonese – targeted for promoting the overseas employment.

Another approach of BMET is to reach the rural areas to facilitate access of skill training facilities at the grassroots level and encourage more participation of poor individuals in TVET. In this regard, 41 training centres in the first phase are being established at Upazilla level and 70 more TTCs are planned in the 2<sup>nd</sup> phase.

The existing regular activities are as follows:

- 1. Organise skill development training course (SSC vocational and short course)
- 2. Imparting language training course
- 3. Training of drivers with auto-mechanics
- 4. Training on City and Guilds certification
- 5. Operating online training course
- 6. Housekeeping training course for outgoing female workers
- 7. Organise pre-departure training course and certification
- 8. Arranging skill competition for migrant workers
- 9. Recognition of Prior Learning (RPL) of the workers experiences particularly the returnee migrants

As a regular process, the TTCs are implementing the mandatory pre-departure training since 2014 to outgoing migrant workers, in addition to their regular functions of providing skills training in different employable trades. The module of the pre-departure training has been prepared by BMET. TTC issues certificate after completion of the training program signed by DG BMET, which is a compulsory requirement for the emigration clearance for the migrant workers.

## 2.06 Wage Earners' Welfare Board (WEWB)

Wage Earners' Welfare Board (WEWB) has been established as a statutory body through "Wage Earners Welfare Board Act, 2018". This board is managed by the Board of Directors comprising representatives of high level Inter-Ministerial representatives. The Secretary of Expatriates' Welfare and Overseas Employment Ministry is ex-officio Chairman of the Board and other members comprises from i) Ministry of Home Affairs, ii) Ministry of Law, Justice and Parliamentary Affairs, iii) Ministry of Finance, iv) Bangladesh Bank, v) Ministry of Foreign Affairs, etc.

The board sets its objectives to ensure welfare of the migrant workers at home and abroad. WEWB aims to achieve sustainable improvements in the quality of lives of the family members of the workers, social reintegration of the returnee migrant workers, and pursuing the quality education for the meritorious children of the migrant workers. WEWB has been working to promote and protect the rights and interests of the migrant workers and their families by providing them with monetary, legal and technological support. The WEWB operates and manages the Wage Earners' Welfare Fund to execute all welfare services towards the migrant workers before departure, in the countries of destination and also after return.

# 2.07 Other organisations relating to welfare of migrant workers

- a) **BOESL:** Bangladesh Overseas Employment and Services Limited (BOESL) is a limited company under the control of the Ministry. It was established in 1984. This is a government-owned organisation, which is responsible to carry out the business of recruiting agents for employment of Bangladeshis abroad with a nominal service charge.
- **b) Probashi Kallyan Bank:** With a view to reducing the cost of migration, the Government has established "Expatriates Welfare Bank' (Probashi Kallyan Bank) or PKB for giving loan with minimal interest to the aspirant workers going abroad and providing financial assistance to the returnee migrants to invest in productive activities.
- c) Labour Welfare Wing: There are 31 Labour Welfare Wings in 29 countries who are working under the Ministry. Officials are engaged for enhancing overseas employment along with ensuring welfare of the migrants primarily at the countries of destination.

## 2.08 Activities of DEMOs

The major functions of DEMOs are dedicated towards the welfare of the migrants. The activities may be summarised in the following broad categories which are further elaborated in Chapter Four of this Guide.

- i) Awareness development
- ii) Regulatory functions during recruitment and deployment
- iii) Dealing with death cases
- iv) Complaint management
- v) Re-integration

# Rationale of adopting TTCs to service migrant workers

## **3.01 Introduction to the Project**

The project "Improving Migration Management in Bangladesh" is geared to, among others, promote, support and facilitate ethical migration in Bangladesh and ensure safe channel for overseas employment. The MARIP Bangladesh project, implemented in 2020, expands the activities of the "Improving Migration Management in Bangladesh" project that included the preparation of a guide or standard procedure to assist the TTCs in the performance of select functions especially the predeparture services usually conducted by the DEMOs.

The guide or standard procedure will be contextualised to the various functions of DEMO that will be applied to the TTCs under the supervision of BMET and MEWOE. The main goal of the guide is to help ensure that the TTCs are able to effectively deliver the services to the migrant workers, acting as temporary DEMOs in their respective districts.

In addition, the MARIP Bangladesh:

**CHAPTER THREE** 

 conducted expanded awareness raising and community education such as roving and miking in 10 districts in Bangladesh, publish various information and education materials, prepare street arts and billboards, expand social media and radio, TV or cable outreach nationwide.

## The functions to be performed are as follows:

- Registration of the overseas jobseekers
- Keeping fingerprint
- Pre-departure training
- Awareness raising program for the potential aspirant migrants
- Using forms and templates including document filing
- Referral processes for the welfare of migrant workers
- Referring complaints from migrant workers for redress of grievances
- 2) enhanced the capacities of selected Technical Training Canters and media (especially local media) in Bangladesh in order to help promote safe, regular, orderly and responsible migration.

## **3.02** Contextualising migration functions in DEMOs and TTCs

In the context of socio-economic development, overseas employment enhances employment opportunities and benefits the families and communities through remittances. But there exist a lot of complexities in the process of migration and the life at the destination country particularly for the unskilled and illiterate persons. The welfare and the protection of migrant workers remains a challenge for the workers, their families and the country in general. The DEMOs are one of the primary agencies responsible to help address these challenging tasks.

The TTCs need to extend humanitarian attitude towards the migrant workers with problems, issues or challenges. A positive mind-set towards human welfare is an essential part of the entire cycle of duties of a DEMO Official which will also be applicable to the TTCs. The role of DEMO and TTC should be dedicated in nature with the efforts to maximise the most visible benefits of managed migration and enhanced protection for expatriates. The DEMO and TTC need to assist the migrant workers in a wide range of matters as well as to promote the safe and responsible migration. DEMO and TTC officials are

instrumental in assisting in the improvement of the welfare of the migrant workers and in promoting safe channels for remittances. They need to disseminate the information on safe channel of migration amongst aspirant migrant workers.

#### **3.03 TTCs to act as temporary DEMO in few districts**

There are 42 DEMOs under BMET and 22 among 64 districts in Bangladesh do not have DEMO. The Ministry has planned to embrace the services of the TTCs in those districts to act as interim DEMO,

particularly providing for the essential preparatory services for the potential aspirant migrant workers such as the registration and keeping finger-print. The TTCs are already imparting the mandatory pre-departure training to the selected migrant workers before departure in addition to their regular functions of providing skills training in different employable trades.

The Ministry has taken initiative to establish DEMOs in the remaining 22 districts which is under process. As the interim arrangement, TTCs are engaged in the performance of the functions towards the migrant workers to facilitate their welfare where DEMO does not exist. This will be an interim arrangement, particularly providing for the essential preparatory services for the potential aspirant migrant workers such as the registration and keeping the finger-print to ensure easy access by the migrant workers, and minimise the travel and costs on the part of the migrant workers.

TTCs in other districts without DEMOs will be included in coming years, through future projects or funding.

## **3.04 Contents of the guide**

The guide has analysed the following:

- Scenarios of existing functions of DEMO towards the overseas employment, i.e. i) Recruitment, ii) Deployment, iii) Employment, iv) Complaint management and v) Return
- Present practices to perform the functions
- Gaps and challenges prevailing in the process of overseas employment in the context of the functions of DEMOs and TTCs
- Standard practices of Worker's Dignity, Respect and Fairness in regard to recruitment and stay in the overseas working environment
- Procedure of delivering the services towards the aspirant migrant workers synchronising the functions of DEMO and TTC
- Grievance redress mechanism of the migrant at different stages access to remedy for the worker's right
- Best delivery of services to meet the ethical and responsible employability target

In general, this guide will contain the:

- Regular procedures of DEMOs that could be performed by the TTCs on a limited scale, emphasising on the pre-departure requirements such as fingerprinting, pre-departure training and awareness raising. The performance of these roles will not be covering all functions at the same time. It can be done in phases in order not to overburden the TTCs without supplementary personnel.
- Forms and templates being used by DEMOs for use by TTCs.
- Basic referral processes and case management for the protection of migrant workers.

• Key elements for an effective and comprehensive pre-departure training and awareness raising within the districts, including the online visa checking.

Initially selected 10 districts to serve the functions towards the migrant workers are as follows:

- 1. Brahmanbaria
- 2. Kurigram
- 3. Lalmonirhat
- 4. Laxmipur
- 5. Madaripur
- 6. Meherpur
- 7. Narayanganj
- 8. Nilphamari
- 9. Shariat<u>pur</u>
- 10. Sunamganj

## CHAPTER FOUR

# Delivery of services to migrants by TTCs

## **4.01** Functions to be performed by TTC for the migrants

The following are the key services under the DEMO's mandate that will be performed by the TTCs:

- 1. Registration of job seekers for overseas employment
- 2. Taking fingerprint of outgoing migrant workers
- 3. Handing over the cheques of compensation for the deceased migrants
- 4. Awareness campaigns for aspirant migrant workers, arranging roadshows on promoting safe migration and distribution of information materials on safe migration to the public
- 5. Receiving application for WEWB scholarship for children of migrants
- 6. Contribute to and participate in the pre-departure training
- 7. Trade test before departure
- 8. Online visa checking

In addition to the above, the TTC will perform the following regular activities in coordination with BMET and WEWB. These activities are regular functions of WEWB, supported by DEMOs, and as such, TTCs can support WEWB especially if these cases are from migrants or families of migrants who are within their respective districts.

- 1. To look after the welfare and help address issues and problems of migrant workers by providing legal assistance or referral.
- 2. To provide financial assistance to distressed workers through the WEWF.
- 3. To attend to death cases and distribute compensation to families of deceased migrant workers, and if needed, to assist in the burial of remains of the workers.
- 4. To provide aid to stranded workers for repatriation or help address challenges faced by migrants especially during crisis or emergency situation.
- 5. To advice on formal transfers of earnings or remittances by informing prospective migrants about opening bank account before departure, the requirements and processes.
- 6. To check the documents and papers of recruitment agencies to ensure authenticity of employment offers and recruitment process.

## 4.02 Stage-wise services synchronising functions of DEMO and TTC

The stage-wise activities of TTCs in servicing migrant workers can be summarised as follows:

#### A. Pre-decision stage

- 1. Skills development
- 2. Digitisation in training system
- Awareness raising: use of social media to promote awareness towards safe migration
- Dissemination of all types of information relating to overseas employment
- 5. Publicity and promotion on regular and legal migration

#### B. Pre-employment stage

- Checking papers related to employment (copy of visa, Power of Attorney to recruiting agency)
- 2. Distribution of updated list of recruitment agencies
- 3. Online visa checking (available for four countries only)
- 4. Checking of employment agreement
- 5. Housekeeping training
- 6. Language training
- 7. Career counselling or vocational guidance
- 8. Registration of aspirant job-seekers in the BMET Database

#### C. Pre-departure stage

- 1. Keeping fingerprint of migrant workers
- 2. Issuance of Emigration Clearance with Smart Card
- 3. Advise for sending remittance through legal channel
- 4. Pre-departure training

#### **D.** Departure stage

1.Assistance for air ticketing of workers2.Support for airport formalities

#### E. During stay in workplace

- 1. Issuance of No Objection Certificate (NOC)
- 2. Scholarships for migrants' children
- 3. Addressing the problems of migrant workers, special emphasis on the protection of women migrants
- Complaint management, including implementing online complaint mechanism
- 5. Legal support to the migrants
- 6. Arbitration, mediation and reconciliation
- 7. Welfare activities

#### F. Dealing the death cases

- 1. Shipment of remains of deceased migrant workers
- 2. Funding supports for burial service and death compensation
- 3. Registration of the death with appropriate agencies
- 4. Securing consent on local burial or shipment of remains
- 5. Visitation to the family of the deceased, if possible
- Ensure proper receipt of compensation money by the deceased's family
- 7. Facilitate access to medical benefits and accident compensation

#### **G.Re-integration of Returnees**

- 1. Recognition of Prior Learning (RPL) of the returnee migrants
- 2. Facilitation of loan from PKB to the migrants due to COVID pandemic

## 4.03 Training needed for the TTC personnel

The migration services are specialised in nature which needs in-house training and capacity building of select TTC personnel. A short-term training program are arranged for the TTC personnel recruited or engaged to provide the services of DEMO. Training on information technology is also very much essential to provide the digital services. These could be enhanced through regular training especially once the personnel already have on-the-job practices.

On the technical side, TTC needs to build the capacity of the personnel engaged in the direct services to include:

- Knowledge on overseas employment procedure
- Problems of migrant workers and redress process
- Welfare of the migrants
- Complaint management methodology

The training contents will provide a holistic view of the functions of an overseas employment programme and equips with the necessary information, awareness, and tools to translate their ideas and concerns into operational realities.

• Gender aspects and inclusiveness in migration, aligned with the TTC function in providing the 30day mandatory training for women migrants and also for regular skills and vocational program.

They should be trained on the basic information about migration. The training methodology will be interactive and participatory to bring together the learning and experience sharing. Modules may cover introduction to international migration and the Bangladesh context which includes the following:

- 1) Recruitment Mechanism in the overseas employment, starting from selection to departure, including programmes and initiatives that promote safe and regular migration as well as ethical recruitment.
- **2)** Framework of Migration with recent facts and figures, the main causes of migration, and definition of different types of migration and migrants.
- 3) International Legal Framework for the Protection of Migrant Rights to provide a brief overview of the foundations of international and national laws on human rights and migrant rights and protection.
- 4) Regional Consultative Processes (RCPs) with the basic notion of regional dialogues on migration. These are Colombo Process (CP), Abu Dhabi Dialogue (ADD), Budapest Process, Asia EU Dialogue, etc.

To ensure the rights of migrant workers, UN Convention on the Protection of Rights of All Migrant Workers and Members of Their Families, 1990 has been adopted and Bangladesh has signed and ratified this Convention.

- 5) Bilateral Agreements and MoUs: Bilateral cooperation on migration issue is very much effective to have a sound process of recruitment between the country of origin and country of destination. Purpose, type, importance and advantage of Bilateral Labour Agreements (BLAs) and Memorandum of Understanding (MoU) with the countries of destination will be discussed and analysed.
- 6) Orderly migration: The movement of a person from his or her place of residence to another country, in keeping with the laws and regulations governing exit of the country of origin and travel, transit and entry into the destination or host country.
- 7) **Repatriation:** The right of a migrant to return to his or her country of nationality under specific conditions specified in various international instruments.

- 8) **Returned migration:** The movement of a person returning to his or her country of origin after completion of tenure of migration in another country.
- **9) Reintegration:** The migrants usually come back to the country after the completion of the tenure of service. It is important to reintegrate them socially and economically. This may need re-skilling or upskilling them and certifying their acquired skill through RPL and other practices.
- **10)** Safe Migration: Safe travel or stay in the destination country (as well as safe return), integration into family and society, and above all, the sustainability of the benefits of migration.
- **11) Others:** Other legal and policy directives related to overseas employment (e.g. passport rules and regulation, immigration, welfare etc.)

While training on the technical aspects of the job is important, training on service delivery, managing difficult clients and other soft skills are equally necessary. In this regard, the TTC personnel has both the technical and psycho-social competencies to, among others:

- 1. Remain proactive to resolve any dispute of the workers.
- 2. Have proper idea about the procedures of the court and arrange to provide legal assistance.
- 3. Inform the complainant about the action taken by the TTC regarding the complaint received.
- 4. Attend to the problem of domestic worker with a special care and prompt action.

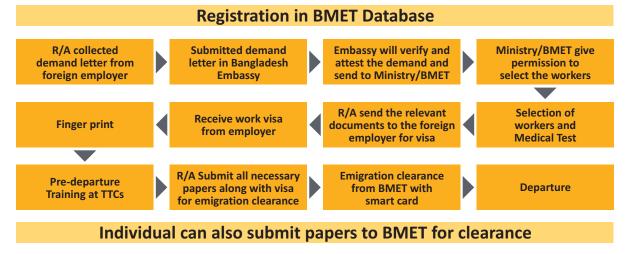

## 4.04 List of Agreements of GoB with Destination Countries

- 1. Bilateral Agreements: Kuwait (2000/2008) and Qatar (1988/2008)
- Memorandum of Understanding (MoU): UAE (2007), South Korea (2007, 2009, 2011, 2013 (for sending workers through Employment Permit System (EPS) by BOESL), Oman (2008), Libya (2008), Jordan (2010), Maldives (2011), Malaysia (2012), Singapore, Bahrain, Saudi Arabia, Cambodia, Seychelles (2019), Brunei (2019)
- 3. Memorandum of Cooperation (MoC): Japan (2018)
- 4. Government to Private (G to P) Sector Agreement: Hong Kong (2012)

#### **4.05 Recruitment procedure**

BMET provides license to the private recruiting agents to conduct recruitment for overseas market on the basis of demand. Recruiting agents are to obtain prior permission from the government before embarking on recruitment. Such permission is given on the basis of a valid offer of employment indicating category of posts, terms of employment, monthly or annual wages, food, accommodation, leave, air passage, etc. Government fixes the migration cost and minimum wages time to time for

## **Recruitment Procedure for Overseas Employment**

different destination countries. Visa/Entry permit received by individual through personal efforts may apply directly for emigration clearance. The documents will normally have to be attested by the Bangladesh missions abroad if there is one in the employing country. Recruiting Agents need to deposit Tk. 23,50,000.00 to BMET for processing license of which Tk. 20,00,000.00 is kept as security deposit. This money may be distributed to the claimants for any fraudulent activity detected.

While most of overseas employment are coursed through licensed recruiting agencies, there are individuals who find employment and migrant based on their own initiative.

## 4.06 Acts, rules and regulations for overseas employment

Migration from Bangladesh is regulated under Overseas Employment and Migrants Act 2013. It is comprehensive in terms of nature, scope and dimension. The provisions under the act for protection of the migrant workers include:

- i) Penalty for contravention of agreement
- ii) Recovery of expenditure from recruiting agents for repatriation of migrant worker
- iii) Provision for trial of offences
- iv) Punishment for fraudulently inducing to emigrate

The rules and guidelines have been formulated for promotion and regulation of emigration and controlling the practices affecting migration. The other major acts and rules are as follows:

SI.	Act, Rules and Guidelines	Date of Issue
1	Recruiting agent classification Rules 2020	2020-03-10
2	Overseas Employment and Migrants Rules (Recruiting Agents License and conduct Rules)2019	2020-01-06
3	Compulsory insurance policy for Bangladeshi workers abroad (Circular)	2019-12-24
4	Overseas Employment and Migrants Act 2013	2019-05-15
5	Wage Earners' Welfare Board Act 2018	2019-05-01
6	Overseas Employment and Migrants' Management Rules 2017	2019-01-24
7	Wage Earners' Welfare Board Rule 2002	2015-03-02
8	Emigration Rules 2002	2014-02-02
9	Revised Guidelines for Employment	2013-01-01

## **4.07 Overseas Employment Policy**

Bangladesh adopted the Overseas Employment Policy in 2006 which has been revised as 'The Expatriates' Welfare and Overseas Employment Policy 2016' as an upgraded and updated version with more provisions for the protection and welfare of migrants and expatriates. The salient features of the Oversees Employment Policy are as follows:

- Ensure the prospect of regular migration of long term and short term for both men and women from all parts of Bangladesh at a rational cost
- Ensure abolition of any scope of irregular migration

- Commitment of government to protect the rights, dignity and security of all migrant workers in and outside the country
- Measures to ensure the social protection of the left-behind families and properties of both shortterm and long-term migrants
- Consideration of misconduct in the recruitment process and provision to make the concerned accountable

- Encouraging remittance flows through official channels and support to the workers and their families to ensure effective and efficient use of remittance
- Assist in social and economic re-integration of returnee migrant workers
- Allocation of necessary resources and strengthen the existing institutional infrastructure and personnel for the implementation of the above policies

#### Other policies of the Ministry are as follows:

#### SI. Policies

- 1. Research Guidelines of the Ministry of Expatriates' Welfare and Overseas Employment, 2020
- 2. Overseas Workers Insurance Policy, 2019
- 3. Principles regarding the health check of Bangladeshi workers going abroad, 2008 (revised)
- 4. Expatriates' Welfare and Overseas Employment Policy, 2016
- 5. Special privilege policy of expatriate Bangladeshis for remittance, 2008

As per the provisions mentioned in the Articles 3 and 47 of the Overseas Employment and Migrants Act 2013, a circular of guidelines for the mandatory insurance for the migrant workers has been issued on 24.12.2019. The age limit for the policy holder is 18-58 years. The policy will be adopted for the period of two years. There are two optional schemes for this insurance policy. Other features of the policies are as follows:

#### a) Policy Option 1:

Insurance value: Tk. 2,00,000.00 Premium: BDT 990.00 (Tk. 500.00 will be paid from the WEWF and Tk. 490.00 by the migrant worker).

#### b) Policy Option 2:

Insurance value: Tk. 5,00,000.00 Premium: BDT 2475.00 (Tk. 500.00 will be paid from the WEWF and Tk. 1975.00 by the migrant worker).

TTC should keep all these policies for reference works.

# 4.08 Standard practices for migrant's dignity, respect and fairness

Promotion of fair recruitment for Bangladeshi human resources is one of the major concerns in ensuring dignity and respect towards overseas employment. Protection of workers' interest and rights start from the appropriate contract signed between the employer and the worker. To ascertain the proper employment agreement, visa papers need to be attested by the Bangladesh Mission abroad. Per the Wage Earners' Welfare Board Act 2018, the WEWB has the mandate to promote the welfare and reintegration of the migrant workers. To implement the activities, the WEWB is in the process of establishing district level offices startin 2021. TTCs will help facilitate the protection, welfare and reintegration of expatriates as an interim arrangement in coordination with these WEWB district offices.

In the performance of this interim arrangements, TTCs should also be familiar with the gender dimension of migration, the need to accept different needs of women and men, and the importance of gender sensitivity and equity in responding to these needs. TTC should know the trends and characteristics of women migration from Bangladesh, and the national legal instruments and other protection mechanism available for women migrants.

Migration and health is also a critical concern especially in light of COVID-19 pandemic where migrants and migrant workers are among the most vulnerable and critically affected. Part of the TTC's tasks in the pre-departure training and awareness raising is to also inform migrant workers about vulnerabilities to health hazards, the importance of occupational safety and health, access and barriers to health

services, and the relation between migration and infectious diseases, HIV/AIDS and reproductive health, among others. The Migrant Resource Centres in Bangladesh have prepared specific materials in this regard. The ICMPD Silk Routes' online platform for migrants and migrant workers also contain specific section that deal with migration and health. The modules are accessible here in various languages, including Bengali: <u>https://www.icmpdsilkroutesmodules.com/</u>

Protection of migrants' rights is ensured through the following measures, among others:

- Signing of bilateral agreement or other arrangements with receiving countries.
- Legal support to distressed migrants.
- Ensuring proper working hour, payment of wages and overtime pay, allowing leave, providing health service, and observing freedom of movement in the work contract.

## 4.09 Awareness development

Dissemination of information and regular mandatory pre-departure training sessions are provided in 68 training centres all over the country before departure of the workers to the country of destination. These are to to make them aware about agreement of service conditions, working environment, culture, wages and other benefits, remittance system, local language of the host country, etc.

To develop awareness, TTCs may ascertain campaigns through electronic and print media and massive information on the legal channels for migration. It is essential to emphasise on the development of awareness, which facilitates the preventive measures towards addressing the problems of the migrant workers. In accordance with the objectives of the pre-departure training, awareness raising on migration may be integrated in the regular skills training programme of TTC. TTC has the better knowledge and expertise in regard to disseminating the required information on skills needed for appropriate work in the destination countries.

The Migrant Resource Centres in Dhaka and Cumilla will regularly coordinate with the TTCs to provide updated and relevant materials that the TTCs can use or share to the public. Joint activities can also be conducted by the TTCs and MRCs in the districts such as miking/roving, radio campaigns, orientation with local authorities and academic institutions, and engagement with media.

#### Special initiatives by TTCs to facilitate the services towards migrants

- Mobile application for visa checking: BMET has developed mobile app for providing visa checking services to the migrants. Anyone can check visa for some specific countries using the app from anywhere of the world. TTC may promote this app for easy access by the migrant workers.
- Use of social media: To form the different network of migrant workers, effective social media may be used. TTCs may use the social media to disseminate all sorts of information on safe migration for the aspirant and potential migrants, for those onsite, and those returning.
- Use of UDC: BMET has been working in collaboration with the Union Digital Centre (UDC). The UDCs are available at the grassroots level and their access to people at the community can help further the information campaigns.

The TTC can coordinate regularly with the Migrant Resource Centres in the conduct of various community education and awareness raising campaigns. TTC can use the various information, education and communication materials developed by the MRCs. TTC can also participate regularly in the MRCs' community outreach, workshops with local government institutions and social media campaigns.

## 4.10 Welfare measures for expatriate Bangladeshis

WEWB arranges the following welfare measures and services for the migrant workers and their families:

- Legal assistance to the workers with cases or problems in the destination countries, including those who are in jail or deportation camps.
- On priority basis, residential plots are distributed to migrants' families in new residential area.
- Families of deceased migrants receive Tk. 35,000.00 (US\$ 450.00) to bear the transportation cost of dead body and funeral/burial expenses.
- Financial assistance up to Tk. 3,00,000.00 (US\$ 3900.00) to the distressed family members of deceased migrants when death compensation from the foreign employer is not received.
- 5) Meritorious children of migrants are provided with stipend to support their education.

Digitisation of the process of migration is basically aimed to achieve the following goals:

- *i)* Create an easy and automated system of recruitment process
- ii) Ensure transparency and accountability in the system of migration management
- iii) Facilitating selection of workers from database by the employers or recruiting agencies
- iv) Monitoring of recruitment process by senior officials through web-based applications

## 4.11 Problems faced by the Bangladeshi migrants

Bangladeshi workers are facing various problems in their countries of employment, which may be summarised as follows:

- 1) Exceeding quotas for job contracts by recruiting agencies (they promote job vacancies more than what they are authorised to) which results to over acceptance of number of migrant workers for deployment, which further results to visa selling and trading.
- 2) Procedural problem in legal institutions causing delay in disposal of cases, which results to delays in compensation or benefits.
- Non-payment, underpayment, delayed payment, poor living conditions, nonproviding of air tickets at the time of exit, and in general, non-adherence to the terms and conditions of employment by the sponsors.
- Substitution of contracts with lower terms and conditions such as low wages, substandard accommodation, no free food and lower or non-existence of other fringe benefits.

Through these processes, migrant communities can check their visa, lodge complaints, download all forms for emigration clearance and perform registration. TTC can coordinate the complaints with UDC and BMET.

5) In case of accidents, long period to get the death compensation by the next of kin due to complexity of legal procedures of the host countries.

TTCs's familiarity with these common problems and challenges faced by migrant workers will help them identify the best guidance to alleviate the psychological concern or process (such as referral) to address the problems.

## 4.12 Discrimination against women

Discrimination against women refers to any distinction, exclusion or restriction made on the basis of sex which has the effect nullifying the recognition, enjoyment or exercise by women, irrespective of their marital status, on a basis of equality of men and women. Violence against women refers to any act of gender-based violence that results in, or is likely to result in, physical, sexual or psychological harm or suffering to women, including threats of such acts, coercion or arbitrary deprivation of liberty, whether occurring in public or in private life" (Art. 1, Declaration on the Elimination of violence against Women,

1993). Some of the common challenging features of female migration in Bangladesh are:

- withholding of passports
- restrictions on mobility and communications
- physical, sexual and psychological abuse

As women migrant workers pass through TTCs to avail of various services, TTC should be knowledgeable of various gender issues and sensitivities and incorporate gender inclusion and responsiveness in their programmes and service delivery.

## **4.13 Efforts to reduce migration cost**

Reports by international organisation indicates a high cost for migration in Bangladesh which burdens the potential migrants and the public in general. The high costs for migration is brought about by several factors such as the presence of illegal recruitment agents and middlemen, visa trading and inaccessibility of services. In line with Sustainable Development Goals and the priority of the government, migration cost should be minimised and the channels of migration need to be made easy and accessible. Among the measures that will help reduce migration costs are: regulating middlemen, imposing standard fees for all pre-departure services and monitoring compliance, issuing proper invoices and receipts for payments, decentralising major services at the district or union level, opening online access to services and payments, and conducting regular awareness campaigns to the public.

TTCs should be well acquainted with the causes, consequences and preventive measures towards the reduction of high migration cost. With the limited functional responsibility, TTCs will extend all out efforts in awareness building and advising the public, especially young Bangladeshis and students, particularly during the pre-departure training, on the cost and benefit of migration and other pre-employment services.

## **4.14 Returnee migrants**

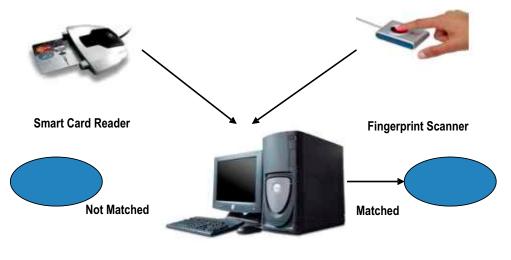

Overseas employment is a contract service for a duration of 2 to 3 years in general, with extension in some cases. Migrant workers usually return after completion of the work agreement with skills and experiences, and at times savings and other assets. These have positive contribution to the economy, provided that the existing environment, policies and structures in Bangladesh have absorptive capacity for returned migrants, either in, among others, the domestic employment market or in business opportunities.

While there is still limitations in having an enabling environment for returned migrants in Bangladesh, there are already activities that can be done to support them, with the participation of the TTCs. These include recognition of prior learning to enable the migrant workers increase their skills level and get favourable terms and benefits of employment; conduct of additional skills training that will be useful for entrepreneurship and business; and for highly-skilled and retirees, tap into their competencies for knowledge sharing and technology transfer.

## 4.15 Digitisation of the recruitment process

BMET has organised a process to provide the migration-related services through decentralised and digitalised outlets at District level offices. TTCs are extending these services to facilitate potential migrant workers' access at the localities in order to reduce time and costs.

BMET has developed a database on the particulars of out-bound migrant workers and extended to 42 DEMOs. Presently, two million occupation-wise data of job seekers in various categories are available for placing to the employer and about 70 lacs data of departed migrant workers have been preserved in the database. DEMO offices provide the smart card to the outgoing migrant workers with encryption of the fingerprint. This smartcard and the fingerprint is cross-checked at three international airports during departure.

## **One-to-one matching of Finger Print at the Airport**

Terminal at the airport

## 4.16 Basic services by TTCs towards migrant workers

The functions of DEMOs can be broadly divided into three categories: i) Regulatory functions, ii) Protection issues and iii) Welfare service. The operational modalities of these three activities have been detailed in the following elaboration:

## i) Registration of aspirant Job-seekers in the BMET Database:

The potential migrant workers register their particulars in the databank from which the recruitment for overseas employment is processed. 42 DEMOs are conducting this registration. The aspiring job-seekers have the facility for entry into the BMET central database from their own district. BMET is maintaining its dynamic and web portal based Database in

Oracle Platform since 2004. **TTC will arrange registration of the particulars in the database** *meticulously. Necessary logistics will be acquired to provide the proficient services. The TTC will arrange appropriate waiting room for the aspirant migrants for the registration process.* 

#### ii) Checking of visa papers

Checking the visa papers is an important service to the migrant workers which includes the review or verification of employment agreement, commonly known as job contract. As the migrant workers are

mostly less-educated and not very much aware about the terms and conditions of the contract, TTC may extend this service to the outgoing migrant workers to check the provisions of the employment agreement and ensure that the workers are well confident about the conditions of the contract. This will help empower them not to be cheated by the agent or any middleman. Most of the time, the visa is purchased by the Bangladeshi recruiting agent or their representative; at times, they are purchased by the migrant worker, which results in high migration cost. *It has become very difficult to control the issue, but TTC must inform the aspirant migrants about the negative consequences of the visa trading, resulting into high migration cost, and make them understood about the unethical practices in recruitment process.* 

#### iii) Online visa checking

A major function in the process of migration is 'online visa checking', which is one of the first steps in the pre-departure stage of migration. Some employing countries have extended the access to check the visa issued for recruitment of workers by the concerned Ministry. It allows an aspirant migrant worker to check the validity of his or her visa status before engaging in any monetary transaction with a recruitment agent. Visa papers are usually issued by the employing country. To check the authenticity of visa, some countries have allowed the checking option in the BMET website or in the relevant government agencies of the destination countries. KSA, Singapore, UAE, Qatar and Bahrain are among those countries providing access for online visa checking. *TTCs will have to offer this service to the aspirant migrant workers.* 

#### iv) Keeping Fingerprint of migrant workers:

Aspirant migrants are required to complete a registration form and record their biometric fingerprint data for processing the overseas employment. In the past, this service was only available at DEMO Dhaka. Since November 2016, the BMET has decentralised this service at the district level offices. *TTC shall have the arrangements for discharging services related to fingerprint.* 

#### v) Issuance of Emigration Clearance with Smart Card:

Obtaining emigration clearance with smart card is a mandatory process for migration from Bangladesh. The smart card was introduced in 2010 at Dhaka DEMO as a digital device that contains a microchip of 64 kb storing all the relevant information about a migrant worker both at home and abroad. To decentralise the process, BMET has extended the smart card services to 6 DEMOs. TTCs will implement this service with the approval of BMET.

#### vi) NOC for Migrants Family Members:

In case of joining the family member in the country of destination, the No Objection Certificate (NOC) for the relation is another category of clearance to allow them to visit the migrant to the country of employment. The provision of NOC for the family members has been decentralised to DEMOs. TTC may extend these services with the approval of BMET.

#### vii) Distribution of updated Recruitment Agency List:

BMET has the legal mandate to issue, renew, withhold and cancel the licenses for private recruitment agencies (RA). TTCs will be entrusted to regularly share the updated list of valid RAs to the public to facilitate safe migration and to prevent exploitation by unscrupulous agents and middlemen.

#### viii) Dissemination of information on all types related to overseas employment:

Proper information dissemination is the pre-requisite of a sound environment in the overseas employment recruitment system, since most migrants have limited knowledge about their work contracts or about the living and working conditions abroad. Several suggested activities for this purpose, in partnership with the MRCs, are mentioned in preceding section of this guide.

## **4.17 Pre-departure training**

Workers must be aware of local customs and their responsibilities as a migrant worker. Abiding by the local rules and laws, custom and culture are part of migrant workers' duties and will make the experience of working and staying overseas more pleasant. In this regard, the content of the predeparture training is very important. Presently, BMET is conducting the mandatory pre-departure training through Training Centres (TTCs) all over the country. This is 3 days for most of the destination countries, 7 days for South Korea through EPS, and 10 days for Seychelles. This training also include guidance on the rules and regulations of destination countries, food habits, custom, safety and security, and working conditions.

## 4.18 Housekeeping training

All the departing female migrants in the domestic services need to attend a training course on the uses of household appliances, rules and regulations, food habits, custom, safety and security, working conditions, etc. This course is a 30-day residential training. Initially, this course was provided in Dhaka only. At present, 46 TTCs are providing this course. The engaged TTCs for offering DEMO services may start or refer the female migrant workers to the nearest TTC for housekeeping training, if this is not offered within their respective districts.

## 4.19 Language training

To facilitate the communication skill and enhance the employability of the migrant workers, BMET has introduced courses on 5 languages (Japan, Korean, Cantonese, Arabic and English) in different TTCs all over the country. The newly engaged TTCs for offering DEMO services will refer the aspirant migrant workers to the nearest TTC for language training if this is not available within their respective districts.

## **4.20** Maintenance of records at TTC

TTC should maintain a register or database for its clients, following standards and information systems set-up by BMET. TTC must appoint an official to entertain each request or complaint received by the TTC. The responsible official should be trained for addressing disputes and must bring notices to the principal of the TTC for further processing.

## **4.21 Complaint Management**

BMET maintains complaint management system. Migrant worker at any stage of migration who falls in fraudulent migration practice can lodge complaint. DEMOs support the BMET in the receipt, referral, processing or addressing of these complaints. There are various platforms or methods that BMET and DEMO use for this purpose, which the TTC may also use.

#### a) Online complaint mechanism

Online Complaint Management (OCM) is a mechanism for automated system of filing complaints online by the migrant workers from any place globally. It has reduced the hassle of the migrant workers in coming to the DEMO or BMET physically to lodge the complaint. It is processed officially and the latest status of the settlement of case may be tracked through web application.

#### b) Complaint Management Cell

BMET has formed a complaint management cell for prompt settlement of complaints relating to any kind of abuse or violation of rules and regulations in relation to the overseas employment. The management cell receives the written complaints from the migrants or members of his or her family. After receiving the written complaint, the cell emails the concerned wing of embassy in respective country as well as forwards a letter along with the submitted complaint to the Director for Emigration and Director for Employment for appropriate action. TTC can send the complaint received to the BMET complaint cell for settlement.

#### c) Complaint against recruiting agent

If any complaint is received against any recruiting agent, this shall have to be referred to BMET with information and recommendation for taking necessary action against the agent. This complaint may be lodged by the worker or the family member of the worker. If any complaint is lodged against the migrants in case of serious misconduct, the TTC shall send it to BMET for settlement also.

#### d) Legal support to the migrants

BMET has decentralised the legal support issues through DEMOs at district level offices to enable them to play an important role in mediating cases related to fraud in the migration processes. One of the major need of a migrant worker is a legal advice or support such as preparing an affidavit or collecting documents to serve as evidence. TTCs can support the migrant workers by referring them to local bar association, pro-bono lawyers or to BMET or WEWB for legal assistance.

#### e) Arbitration and reconciliation

The arbitration and reconciliation among the migrant worker, middlemen and the recruiting agents is usually done at the BMET headquarters through the complaint management cell. This function has also been performed at district level offices informally to provide the redress to the aggrieved victim of fraud in the migration process through mediation. TTCs can offer their arbitration services against fraud and deception in light of Article 41 of the Migrants Act 2013. TTC need to extend legal support through individual counselling, mediation or arbitration.

## **4.22** Dealing with death of migrants

Dead body repatriation, funding support for burial service and distribution of the death compensation are the major functions relating to death of migrants. DEMOs facilitate the disposal of dead body of the migrant workers by transmitting formal request from migrant's families. They also process the application for death compensation and finally arrange the distribution of the cheques for the compensation or grant money from the Wage Earners' Welfare Board (WEWB) to the legal heirs of the deceased.

Death in foreign country creates different and difficult situation to the family of the deceased, which necessitates action or support from the government, regardless of the cause of death. They can natural such as due diseases, work-related such as due to accidents, or traffic-related accidents, which is common in Middle East countries.

In case of death, TTCs need to perform the following tasks:

i) After getting the information of death from the Embassy or Consulate or from the family of the migrant worker, TTC will collect the decision from the NoK whether the human remain will be buried there locally or be repatriated to Bangladesh.

- ii) If the body is requested for repatriation, TTC will communicate with the Embassy or Consulate regarding the decision and follow-up for earliest possible action. Then, TTC will inform the family about the grant for the burial and transportation of the dead body to their destination which is BDT 35,000.00 from the WEWB. This money is to be paid at the airport in Dhaka during handing over of the dead body at the cargo section of the airport in Dhaka.
- iii) TTC will also arrange distribution of arrear dues and death compensation money received from BMET or from the Embassy or Consulate to the legal heirs of the family of the deceased.

#### 4.23 Medical grant and accident compensation

In case of the migrant worker's injury due to a work-related accident which necessitates his or her return to Bangladesh, WEWB arranges a financial grant for medical treatment and accident compensation from the overseas employer to the worker. TTCs will be involved in the distribution process of these grants. The migrant workers have been covered under the mandatory insurance provision implemented by the Government starting in October 2019.

## 4.24 Scholarships for migrants' children

42 DEMOs are actively engaged in processing and disbursing the scholarship offered by the WEWB for the meritorious children of the migrant and expatriate workers. TTCs will be involved in the distribution process of these grants.

## 4.25 Digitisation in training system

In the training methodology, digitisation process has been introduced with the use of multimedia classroom and computer application. E-learning platform to provide the contents of training both for skills development and pre-departure orientation training is stepping up and proving the success in visualisation of the practical work environment. In the process of familiarisation, the key massages are imparted both for skill training program and predeparture training to potential migrant workers. TTCs will emphasise this programme towards the migrant workers.

# 4.26 Assistance to workers for sending remittance in legal channel

Steps to be followed TTC in case of Death of Expatriate Bangladeshis:

- 1. Register the death info into a database
- 2. Inform WEWB or family of deceased to provide consent on local burial or repatriation of human remains and arrange accordingly
- 3. Try to visit the family of the deceased, if possible
- 4. Ensure measures so that the compensation money reaches the family

Remittance is one of the major factors for the economy of Bangladesh. It assists the economy to a large extent and government has given special attention to enhance remittance flow. It is necessary to support the migrant workers for smooth sending of remittance in the regular channel. Banks are the common transfer platform for remittance. The money transfer institutions are also rendering services in order to facilitate remittance with the least costs but expedient means. Government has provisioned 2% incentive for sending remittance in legal channel since August 2019. This initiative has promoted the remittance flow in the country with a positive impact.

Local banks are drawing arrangements with foreign banks to facilitate remittance. Banks have some limitations to access the workers especially those in remote areas. TTCs can play a vital role to guide the workers to send money through banking channels and provide them the necessary information about the remittance houses, current exchange rates and other business offers for the benefit of the migrant workers. They can also direct migrant workers and family members to open bank accounts before departure to facilitate sending of remittance.

#### Transfer of remittance mechanism

#### A. Formal Channels:

- Demand Draft
- Travellers' Checks
- Telephonic transfer
- Account to account transfer
- Electronic transfer
- Remittance transfer through mobile phones

#### B. Informal Channels: not encouraged

- Cash and/or in kind sent by friends and relatives
- Cash and/or in kind carried by the migrant themselves
- Hundi/hawala (Stiffly, irregular and risky)

#### C. Promoting Savings of remittance

- Financial motivation and encouragement
- Investment instruments
- Foreign Currency Accounts
- Non-resident Foreign Currency Deposit (NFCD) Account
- Bonds
- Wage Earners Development Bond
- Non-resident Investor's Taka Account (NITA)
- US Dollar Investment Bond
- MFI Investment Products

The efforts mentioned above should be supported by the TTCs through:

- 1. Developing and distributing posters, leaflets and others materials from different banks.
- 2. Arranging programme to honour the highest remitters in the locality by giving a certificate.
- 3. Assisting in opening bank account at TTC premises.
- 4. Promoting government bonds and privilege card introduced by the Government.
- 5. Liaising with banks and exchange houses for sending remittances smoothly.
- 6. Assisting in the simplification of procedures to remit money.

## **4.27 Skill development**

Skill development is an important area for the migrant workers. To realise the global demand and reduce migration cost, it is important to diversify skill development training programmes to cater to the foreign employment market. TTCs can extend the training program as per the demand of the destination countries.

## **4.28** Assistance to the returnee migrants

A good number of migrant workers have returned from different counties due to COVID pandemic situation. Ministry of Expatriates' Welfare and Overseas Employment extends several programmes to support these distressed workers. As of November 2020, 359,093 migrant workers returned in distressed condition. Migrant workers have been assisted with BDT 3 crore at the airport to facilitate their immediate needs and transportation to their own districts. BDT 13 crore has been distributed through 32 missions abroad to the distressed returnees under social safety net. Incentive of BDT

200.00 crore has been allocated for implementation of this plan. TTCs may extend services towards the returnee migrants to make easy access to all these assistance.

#### i) Recognition of Prior Learning (RPL) of the returnee migrants

Assessment and certification of the acquired skills by the workers during their stay abroad is termed as Recognition of Prior Learning (RPL). Through this approach, the skills will be accredited by the Bangladesh Technical Education Board which will facilitate the re-employment and re-migration potential of the returnee migrant workers. TTCs are organising this RPL program for them.

#### ii) Loan to the distressed migrants due to COVID pandemic

Ministry has also announced soft loan facility from the *Probashi Kallyan* Bank for the migrants returned during COVID pandemic. This program is aimed at supporting the distressed returnee migrants to promote reintegration economically in the society through self-employment and entrepreneurship development. There are 35 sectors selected to provide this rehabilitation loan.

# 4.29 Resource requirements of the TTCs to be functional as DEMO

TTCs may require some additional facilities to perform these activities as presented below:

#### A. Infrastructure:

TTCs are mostly designed and built to impart different types of vocational and technical training to the youth. Enabling the TTCs to cater to the needs of migrant workers would require some infrastructure and facilities such as additional human resources, work areas, equipment and supplies, and communication facilities.

#### **B. Equipment:**

Some specific equipment will be required for extending the services to the migrant workers. These are as follows:

- 1. Computer 2
- 2. Printer
- Fingerprint m/c
- 4. Smart Card printer machine
- 1 (If any particular TTC is allocated with the responsibility of issuing smart card)

#### C. Furniture

A set of furniture will be needed to arrange the provision of DEMO services in the TTC. These are as follows:

1.	Executive Chair	3
2.	Guest chair (3 chairs) set	4 (In the waiting space for the migrants)
3.	File cabinet	2

1

2

#### D. Resource materials

Sufficient number of resource materials for awareness campaigns should be provided. Necessary amount of stationeries, communication facilities and other essentials may be supplied so that they can deliver the services comfortably.

#### E. Workforce

TTCs are operating with instructional and academic human resources. Some specific manpower need to be engaged for exclusive services for the migrant workers such as:

1.Migration officer12.Computer operator13.Head assistant14.Office assistant1

## 4.30 Recommendations in regard to services for ethical and responsible migration

TTCs must be pro-people, migrant-friendly and serves-efficient. TTCs should serve for the protection of migrants and extend humanitarian attitude towards them with a positive mind-set. The main features in delivery of services are as follows:

#### A. Protection of Workers:

- To safeguard the worker's rights, upholding his or her dignity as a person and as a worker;
- To ensure that the migrant is not exploited or discriminated;
- To provide assistance on all matters pertaining to the migrant's contract or employment;
- To provide proper documentation to ensure the protected and facilitated migration;
- To ensure migrants and their families receive compensation for death, injury or others;
- To ensure that the rights and well-being of women migrant workers are protected against abuse and exploitation; and
- To provide assistance in remittance transfer and account opening.

#### B. Development of Migrant Services and Mechanisms to Access those Services

Migrant services include, a) awareness raising through public information and education; b) migration health services; c) safe remittance transfer; and d) investment opportunities,

These services will be mostly designed to formulate a function-oriented TTC with the following special characteristics:

- Migrant friendly
- Pro-active
- Digitalised services
- Decentralised functions
- Easy to access
- Efficient service delivery

#### C. Service facilitation

There is shortage of staff in some TTCs to serve the huge number of aspirant migrant workers. To provide more intensive, timely and client-oriented services to the migrants, the following steps should be taken:

- 1. Arrange more staff from regular budget, locally hired or outsourced.
- 2. Engage with NGOs to support some welfare services.
- 3. Utilise Union Digital Centres (UDCs) opened under the purview of A2i of ICT Ministry and more services could be extended to the remote areas with convenience.
- 4. Conduct massive information campaigns through social media and create groups in Messenger, Viber, IMO, etc.
- 5. Maintain records and prepare a local database of migrants and expatriates within the district to facilitate access to service, as well as take cooperation in redressing problems of workers locally.
- 6. Increase budgetary provision for labour welfare wings to extend more efficient services.

- 7. To ensure reduction in time, distance, visit and cost of the migrant workers to get the services from TTC, the services may be programmed through counter-booth system to avoid middlemen in the TTC premises.
- 8. Display information on all the services in TTC through info-graphics, including the citizen charter, with all requisite fees and processes.

- 9. Protection of workers during the prosecution of cases against the problems of workers should be ensured from TTC to facilitate accruing the proper result from the cases.
- 10. Promote more skilled migration through encouraging and adopting skill development training.
- 11. Capacitate migrants and their families on financial inclusion and literacy, including use of formal banking channels for their remittances.
- 12. Inform migrant workers about various bonds and other investment options and opportunities.
- 13. Establish a digitised system to file complaints. Mobile applications can be utilised for an effective complaint service mechanism.
- 14. To make the TTCs more migrant-friendly, make the procedures simple and expedient. Specified formats with clear and simple instructions should be prepared to execute the functions at different kinds of service delivery.
- 15. Create a positive mind-set for the entire TTC with all the officials and staff to work in proactive and migrant-friendly attitude. In this regard, an intensive training should be provided to the TTC on rules and regulation and also in-service training to protect the rights of migrant workers.

## **4.31 Use of various Formats**

Some specified formats may be used by the TTCs to facilitate the rendering of services in a coordinated way. The forms are in the Annexes.

# Annexure

- 1. Registration form for overseas employment
- 2. Complaint lodge form
- 3. Form for receiving human remains of the deceased migrant
- 4. Form for burial information of the deceased migrant
- 5. Application form for i) Financial Assistance for dead body transportation and burial, ii) One-time financial assistance, iii) Death Compensation from Employer or other sources and iv) Salary dues and insurance
- 6. Form for submission of documents
- 7. Fingerprint enrolment form
- 8. Individual clearance form
- 9. Form for Recruiting Agent
- **10.** Application form for financial assistance
- 11. Format for the General Power of Attorney
- 12. Template for guardianship certificate
- 13. Sample form for Indemnity Bond
- 14. Request for information form
- 15. Complaint form to Information Commission
- **16. Sample RPL notice**
- 17. Notice- application for scholarship from WEWB
- 18. Application form for scholarship application
